Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)
Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year. Name of Attached Document Listing Required Information

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481. Name of Attached Document Listing Required Information

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area. Name of Attached Document Listing Required Information

Kennebec Telephone Company

Certification of Compliance with Applicable Service Quality Standards and Consumer Protection Rules for Voice and Broadband Services

Service quality standards and consumer protection rules for broadband are not as defined as the rules for voice services. The Company complies with any service quality standards and consumer protection rules for broadband that are out there now and any that will be defined in the future.

<u>Service Quality Standards</u>

For voice services, the Company:

- Provides voice grade access to the public switched network.
- Provides flat rated local exchange service with no additional charge to end users.
- Provides access to the emergency services provided by local government or other public safety organizations, such as 911 and enhanced 911.
- Provides toll blocking and toll limitation services.

For voice and broadband services, the Company:

- Advertises the availability of its services and the charges using media of general distribution and/or on its website.
- Maintains a business office providing customers with access to a customer service representative either in person or via a local telephone call or toll-free telephone number during business hours.
- Directs after hour calls to the Company's help desk.
- Directs trouble reports to the on-call technician.
- Tracks all service orders to ensure they are completed in a timely manner.
- Measures its service connection and service interruption performance on a regular basis.
- Trains employees to:
    - Answer all incoming calls promptly.
    - Respond to all inquiries for information promptly and courteously.
    - Investigate thoroughly all customer complaints and handle appropriately according to the Company's guidelines for resolution of customer complaints.
    - Be knowledgeable about products and service offerings so they can assist the customer with selecting the best service option.
- Has a process for periodic inspection, testing and preventive maintenance of its equipment to permit the rendering of safe, adequate and continuous service at all times.
- Meets or exceeds the standards established by the state commission and provides any reports required in accordance with the state commission's rules.

<u>Consumer Protection Rules</u>

The Company has established operating procedures designed to facilitate compliance with applicable consumer protection rules which include compliance with the Customer Proprietary Network Information (CPNI) rules. The operating procedures include:

- Appointment of a compliance officer.
- A manual detailing the specific procedures for protecting consumer information.
- Employee training on an annual basis.
- A disciplinary process for improper use of consumer information.

If complaints are filed with the Company regarding consumer protection rules, the complaint is immediately investigated, the matter tracked and any corrective action noted. This process ensures that problems are addressed and corrections made.

Kennebec Telephone Company

Functionality in Emergency Situations

Back-Up Power

The Company has a reasonable amount of back-up power to ensure functionality without an external power source. Central Offices, DLC Cabinets, and FTTH ONTs all have minimum 8 hour battery backup. Central Offices have standby generators, and we have portable generators to provide power to DLC cabinets if needed. We have a plan to replace ONT batteries with charged spare batteries. This applies to both voice and broadband services to our customers.

Rerouting of Traffic around Damaged Facilities

The Company is able to reroute traffic around damaged facilities. Our regulated inter-exchange and intra-exchange traffic is on a SONET ring with diverse routing to prevent being isolated by a fiber cut. The same local loop serves both the voice and broadband services to the subscriber.

Traffic Spikes

We have a significant amount of unused switching capacity to handle sporadic traffic spikes resulting from emergency situations. We have 72 2-way trunks between Kennebec Telephone Company and SDN for inter-exchange traffic. We have 24 trunks for incoming wireless from SDN or outgoing LNP traffic to SDN. We have one T1 for incoming traffic from Century Link. As for broadband, we routinely monitor the overall customer usage and feel we have enough capacity to handle usage spikes.

Kennebec Telephone Company, Inc.

Description of Tribal Engagement

The Company provides services in Lower Brule Reservation. On August 3, 2015, by letter sent via certified mail to the Lower Brule Sioux Tribe Chairman, the Company requested a meeting with the Lower Brule Sioux Tribe to exchange information and discuss issues related to the deployment and provisioning of communications services on Tribal lands. The Company did not receive a response to this letter. The Company submitted another letter via certified mail on October 5, 2015. The Lower Brule Reservation has not yet responded to these requests to allow for the scheduling of an "engagement" meeting.

In accordance with provisions in the FCC's USF and ICC Transformation Order, paragraphs 636 and 637, and 47 CFR 54.313(a)(9), at the meetings with the Tribal Authorities, the Company will, with tribal input, develop a needs assessment to assist with future service deployments on Tribal lands. In particular, the Company and the Tribal Authority discussions relating to needs and service deployment will be focused on community anchor institutions. The feasibility and sustainability of communications services on tribal lands will be discussed and the Company will, with assistance from the Tribal Authorities, attempt to identify additional steps that can be taken to make essential communications services deployed on Tribal lands both feasible and sustainable. The Company and Tribal Authorities will also discuss and explore ways in which they can coordinate or partner to ensure that services are marketed on tribal lands in a manner that will relate to the community and resonate with consumers, with the aim of increasing service adoption. At such meetings, the Company will also be prepared to discuss the relevant rights-of-way and other permitting and review processes, as well as any challenges associated with these processes. And finally, the Company will come to any such meetings prepared to discuss and engage the Tribal Authorities on any relevant and applicable Tribal business and licensing requirements.

Lower Brule Sioux Tribe Chairman
PO Box 187
Lower Brule, SD 57548-0187

Dear: Mr. Chairman,

The Federal Communications Commission (FCC), as part of its 2012 Order reforming the federal universal service mechanisms related to telecommunications and information services, adopted new "Tribal Engagement" provisions that are intended to improve communications and foster a greater understanding between service providers and Tribal entities of the factors necessary to deploy and sustain telecommunication services on Tribal lands. *See* FCC Public Notice, Office of Native Affairs and Policy, Wireless Telecommunications Bureau, and Wireline Competition Bureau Issue Further Guidance on Tribal Engagement Obligation Provisions of the Connect America Fund, DA 12-1165, released July 19, 2012.

Pursuant to the FCC's rules related to Tribal Engagement Kennebec Telephone Co., Inc. would, as soon as possible, like to begin discussions with the Lower Brule Sioux Tribe in a manner consistent with the FCC rules. Accordingly, we would request a meeting with the Tribe and it is our hope that this meeting could be held sometime prior to the end of October, 2015. The purpose of this meeting will, generally, be to exchange information related to the deployment and provisioning of communications services on Tribal lands.

While Kennebec Telephone Co., Inc. leaves to your discretion attendees from the tribe at this requested meeting, it is important that at least some of the tribal representative attendees at the meeting are "decision-makers," as this can change the perspectives of the discussions. Kennebec Telephone Co., Inc. asks that the Lower Brule Sioux Tribe provide a name and contact information for a Tribal representative who can assist in scheduling and arranging a meeting with the appropriate Tribal government staff and leaders to discuss deployment and sustainability of telecommunications services on Tribal lands. This information may be provided to the undersigned by calling (605) 869-2220, or through an e-mail directed to rodb@kennebectelephone.com.

Thank you for your cooperation in this matter. We look forward to discussing these important matters with you.

Sincerely,

Rod Bowar
President/Manager

Kennebec Telephone Company

Lifeline Terms and Conditions

Kennebec Telephone Company ("Kennebec") offers Lifeline program-supported service to qualified low-income residential consumers for one telephone line per eligible household. The Lifeline program provides discounts to eligible low-income consumers to help them establish and maintain telephone service. Lifeline assistance lowers the cost of basic, monthly local telephone service. Eligible consumers can receive $9.25 per month in discounts. In addition, the Federal Universal Service Charge is not assessed to consumers participating in Lifeline. Toll Blocking prevents the placement of all long distance calls for which a subscriber would be charged. Toll blocking is available to eligible consumers at no cost. Also, by choosing this option, consumers are usually not charged a deposit.

Lifeline Program Eligibility Information

Program Based Eligibility

Consumers are eligible for Lifeline if they, one of their dependents or their household participate in one of the following qualifying assistance programs:

Low-Income Home Energy Assistance Program (LIHEAP)
Federal Public Housing Assistance (Section 8)
Supplemental Nutrition Assistance Program (SNAP)
Medicaid
National School Lunch Program's Free Lunch Program
Supplemental Security Income (SSI)
Temporary Assistance for Needy Families (TANF)

Lifeline applicants must present documentation demonstrating eligibility either through participation in one of the qualifying federal assistance programs or through income-based means.

Acceptable documentation of program-based eligibility includes: current or prior year's statement of benefits from a qualifying state, federal or Tribal program; notice letter of participation in a qualifying state, federal or Tribal program; program participation documents; or another official document evidencing the consumer's participation in a qualifying state, federal or Tribal program.

Income Based Eligibility

In addition, consumers are eligible for Lifeline if their household income is at or below 135% of the federal poverty guidelines.

2016 Federal Poverty Guidelines – 135%

Household Size	**48 Contiguous States and D.C.**	**Alaska**	**Hawaii**
1	$16,038	$20,034	$18,455
2	$21,627	$27,027	$24,881
3	$27,216	$34,020	$31,307
4	$32,805	$41,013	$37,733
5	$38,394	$48,006	$44,159
6	$43,983	$54,972	$50,585
7	$49,586	$61,992	$57,010
8	$55,202	$69,012	$63,464
For each additional person, add	$5,616	$7,020	$6,453

Acceptable documentation of income eligibility includes: prior year's state, federal or Tribal tax return; current income statement from an employer or paycheck stub; social security statement of benefits; Veterans Administration statement of benefits; retirement/pension statement of benefits; unemployment/workmen's compensation statement of benefits; federal or Tribal notice of letter participating in General Assistance; or a divorce decree or child support award or other official document containing income information.

Tribal Eligibility

A subscriber who lives on Tribal lands and is an eligible resident of Tribal lands is eligible for Tribal Lifeline service or Tribal Link Up if the subscriber, one or more of the subscriber's dependents, or the subscriber's household participates in any of the above-listed qualifying assistance programs or one of the following Tribal-specific federal assistance programs: Bureau of Indian Affairs General Assistance; Tribally Administered Temporary Assistance for Needy Families; Head Start (if income eligibility criteria are met); or the Food Distribution Program on Indian Reservations (FDPIR). Tribal subscribers may also qualify if the household income is at or below 135% of the Federal Poverty Guidelines.

Numbers of Minutes-of-Use Provided as Part of Lifeline Program Service

Kennebec's Voice Lifeline service includes unlimited local minutes-of-use within the toll-free calling area. Kennebec's Voice Lifeline Plan does not include any free minutes-of-use for toll. Toll is billed at the standard toll rate depending on which interexchange carrier the consumer subscribes to for toll service. As part of the Lifeline service, Toll blocking is available to eligible consumers at no cost.

Rates

Subscribers may receive the Lifeline credit on any type or grade of local service, including bundled services that are normally offered by Kennebec. Advertised rates do not include any applicable taxes or surcharges.

Recertification of Lifeline Eligibility

Lifeline recipients are required to recertify their eligibility annually. Failure to properly recertify a recipient's continued eligibility for the Lifeline program will result in termination of the Lifeline recipient's monthly Lifeline discount and de-enrollment from the Lifeline Program.

Additional Lifeline Program Information

The Lifeline program is limited to one benefit per household, consisting of either wireline or wireless service. A household is defined, for purposes of the Lifeline program, as an individual or group of individuals who live together at the same address and share income and expenses. Lifeline is a government benefit program, and consumers who willfully make false statements in order to obtain the benefit can be punished by fine or imprisonment or can be barred from the program.

This ensures that the network is maintained and operated to provide telecommunications and information services as well as interexchange services and advanced telecommunications that are reasonably comparable to those services offered in urban areas and are available at rates that are reasonably comparable to rates charged for similar services in urban areas. Expenditures are not tracked at the wire center or census block level and are reported here on a total service area basis. We believe it is reasonable to conclude the same % of universal service funding received in 2015 will be used to ensure and improve service quality in 2016.

It is estimated that [redacted] or [redacted] of universal service funding received in 2015 was used to improve *service coverage* at wire centers served by our company for telecommunications and information services as well as interexchange services and advanced telecommunications (broadband). Due to these expenditures, [redacted] of households in our service area currently have access to our broadband capable network. Expenditures are not tracked at the wire center or census block level and are reported here on a total service area basis We believe it is reasonable to conclude the same % of universal service funding received in 2015 will be used to improve service coverage in 2016.

It is estimated that [redacted] or [redacted] of universal service funding received in 2015 was used to improve *service capacity* at wire centers served by our company for telecommunications and information services as well as interexchange services and advanced telecommunications (broadband). Due to these expenditures approximately [redacted] of households in our service area have access to our broadband capable network at speeds that meet or exceed 10Mbps/1Mbps. For those not currently at 10 Mbps /1 Mbps the service is available upon reasonable request as fiber has been deployed to the field electronics that serve the local loop and the customers are currently capable of receiving 8 Mbps /1 Mbps service. Expenditures are not tracked at the wire center or census block level and are reported here on a total service area basis. We believe it is reasonable to conclude the same % of universal service funding received in 2015 will be used to improve service capacity in 2016.
